

## Engineered to Keep Working

**Everything we manufacture is designed to offer our customers longevity and value. It's a reassurance for professionals that our products are worth their hard-earned money. Our irrigation components, tubing, valves and swing assemblies, dripline and accessories are all built on a tradition that spans generations.**

We're committed to a single goal of making products that give industry professionals the confidence that their money is working as hard as they do. Proudly manufacturing in the USA in two locations, Tolleson, AZ and Kissimmee, FL.

It's a commitment that starts in our state-of-the-art manufacturing plants. In these well-designed, dynamic operation, our employees collaborate to design, develop and test our entire line of products—using only the best materials in everything we make.

Materials and equipment provide us with the ability to manufacture great products, but they're only part of the story—our products wouldn't be as durable and reliable as they are without the expertise and dedication of the people behind them. Which is why we show up to work every day committed to one another...to build a culture of teamwork...and to manufacture quality engineered products for professionals in the irrigation, landscape, and agricultural industries that will stand the test of time—day after day. Everyday.
